# Corporate and Social Responsibility

**BMP is also committed to ensuring a high standard of ethical and environmental trade practices, including the protection of workers' rights, across its global businesses and expects its Suppliers to demonstrate a similar commitment to ethical and environmental best practice.**

BMP provides a safe and healthy working environment for all its world-wide employees.

BMP also invests in its local communities sponsoring good causes, together with making donations to charitable organisations.

## Health, Safety and Environmental

**Health & Safety**
BMP is a member of the British safety Council and maintains a Health and Safety management system that complies with guidelines set out in EN ISO 18000.

BMP provides a safe and healthy working environment for all its world-wide employees, subcontractors and clients.

**Quality**
BMP is accredited to ISO9001 (2008) Quality Management System, where products are delivered right first time, on time and according to customer specifications.

This means that quality is inherent in everything that BMP does, where every employee is empowered to take responsibility for the quality of the product they produce or the service they provide.

**Environmental Impact**
Preserving the world's finite resources will become an important challenge for manufacturing companies in future years.

BMP is already committed to working closely with its customers and suppliers to identify opportunities for re-using metals, plastics and elastomeric products.

BMP is ISO accredited and actively encourages supplier participation at project design stage in order to identify environmentally friendly raw materials which can be easily recycled.
